Sprint 2 Demo

Team 33: Mark Gorelik, Tzu-Yu Huang, Kuan Chen, Guimin Ren

Project Description

- Luxury Auctions
- Live Bidding site
- During bid, user uses buttons/input text to offer bid for item
- Each bid is timegated
 - After time expires, user with highest bid is the winner
 - Winner uses PayPal to complete transaction
- Technologies
 - PayPal, Geo-location, Email notification

Progress/Roadblocks

Progress:

- Good progress for Sprint 2
- Functional but need more attention to CSS.

Roadblocks:

• Time Zone

Backlog for next demo

Next Steps:

- Adjust CSS for a better look
- Refine the usage of payment page
- Refine the home page (search function, items showcase)
- Deploy on cloud and test within team

Nice to have:

Chatbot on support page (Google Dialog Flow)
